All members of Ariel Lodge No. 156 are requested to meet at their Hall next Tuesday evening, for special business.

J. C. GRAHAM, Sec.

March 16, 1870.  
Gold closed in New York, on Monday, at 112.

Our correspondent "Ethiopia," writes us that his series of Historical Sketches is interrupted this week by sickness. He promises to be on time hereafter.

We have received the first number of the "Primitive Methodist," published at Charleston, W. Va. in the interests of the M. E. Church South. It is edited by the Rev. Wm. Gaines Miller. Its columns are well filled, and its mechanical appearance good.

CADOT & BRO. have received some mixed pickles from the celebrated house of CROSBY & BLACKWELL, purveyors to Her Majesty, Queen Victoria, No. 21, Soho Square, London. They are put up in quart and half gallon glass jars. They are the best article of the kind we have ever tasted.

### Old Men.

ELIAS SUDDETH, born 14th Feb, 1756, in Faguer county, Va., now resides in Harrison county, West Va., enjoying good health, can walk four or five miles a day, and uses his rifle with skill. He is a worthy member of the Baptist Church. One hundred and fourteen years, is certainly a ripe old age. Jackson county, W. Va., also presents WILLIAM C. ANKMAN as her oldest citizen. Born in Frederick county, Maryland, Feb. 2d, 1778. Can use his axe, ride on horseback, and in October, 1869, shot the head of a foul at fifteen paces. The above speaks favorably for the health of West Va.

The certificate of the Gallipolis Building and Loan Association was filed in the office of the Secretary of State on the 13th. Capital stock, \$50,000—shares, \$200 each. This is an organization of our colored citizens.

The corporators are Zachariah Allen, G. S. Jones, Mulligan Conner, Daniel R. Whiting and Madison Bows.

Sulphate of iron, 5 grains; peppermint water, 11 drachms; spirit of nutmeg, 1 drachm—to be taken twice a day, said to be a sure cure for drunkenness. Any druggist can prepare it.

The first steamer used on our western waters was built under the immediate supervision of Robert Fulton, at Pittsburgh, in 1811. It was called "The Orleans," and left Pittsburgh in October of that year, arriving at Natchez about January 1, 1812. This boat ran between Natchez and New Orleans for about two years, making the voyages to average about seventeen days, and was finally wrecked near Baton Rouge.

The Lancaster Gazette notices our Railroad project, and says: "Good speed to this project."

Dr. D. W. CLANCY has returned to the city after an absence during the winter attending a course of lectures in Philadelphia.

Our Agricultural column on the 4th page, contains some important suggestions in relation to grafting and the raising of sorgo cane.

We have but little to add to our report last week of the doings of the County Commissioners. Bills to the amount of \$1199 68 were passed upon, and ordered to be paid out of the Revenue fund. The Court House yard received the attention of the Board, and the following order was passed:

Ordered, That the playing of croquet and all other games upon the Court House grounds be strictly forbidden; also that horses and cattle shall be kept out of said grounds. The Sheriff is charged with the enforcement of this order.

A tax of one mill on the dollar was levied for Bridge purposes. The Board adjourned Wednesday noon.

The Philothalians gave their first public entertainment at ALESHIRE'S Hall, last evening, and played extremely well to a very crowded and delighted audience.

The scenery, dresses and all the stage accessories, were first class. They play again to-night, and we bespeak for them a full attendance.

Our city authorities should do something to abate the crowd of idlers which almost every evening, in warm weather, congregate about the corner of Second and Court streets. At times it is almost impossible for a lady to pass there, and if she does succeed in doing so, it is at the risk of hearing words which she should not hear. Last Saturday evening was one of these occasions.

There was not only a crowd, but one man wanted to fight whether or no, and as usual in such cases, was guilty of loud and unbecoming language. The Council, or the police, should look to this matter.

Mr. BRADBURY presented a petition to the Ohio Legislature, on Monday, from 17 citizens of Gallipolis, against the passage of the steam boiler inspection bill.

A resolution was offered in the Ohio Senate by Mr. BOESL, Democrat, Monday, asking the Ohio Representatives in Congress to use their influence to abolish the National Banks. The resolution went on the table under notice to discuss.

On Sunday the wind caused the Annie Laurie to sink the wharfbat at Rome. The owner of the wharfbat claimed \$1,000 damages, but Capt. Hegler preferred to pay a man to repair the actual damage done.

The reports from all parts of the State of Indiana are unfavorable to the wheat crop. The freezing out has been very general.

### Brevities.

WILLIAM THOMAS was taken to the Penitentiary, last week, from Portsmouth, for the term of three years, for burglary.

Parents should visit their children at their schools. It will benefit both teachers and pupils.

The real estate appraisers are now busily at work.

Young people who lip, are requested to say Miss Myth Smith.

At the next State Fair, premiums to the amount of \$22,000 will be offered.

The Presbyterian churches of Cincinnati are declaring for "free pews." Three have already done so, and the others, it is said, will soon follow.

Geo. H. PENDLETON is President of the preliminary Cincinnati, Portsmouth and Ironton R. R. organization.

Wise & Co., of Ironton, are building a new boat for Capt. BEATTY—180 feet long, 34 feet width of floor, 36 feet beam, and 5 feet hold.

The Ohio State Sunday School Convention will hold its next annual session in Springfield, Wednesday and Thursday of the first week in June.

Some 50,000 lbs. of wool has been purchased in Harrison county, during the past two weeks. The selling price was 45 cents.

There are 3,600 barrels of whisky in store at Portsmouth, all from one distillery. The barrels cover nearly one acre of ground.

A school teacher by the name of KELLOGG, of Rutland township, Meigs county, was fined ten dollars and costs, by Judge GUTHRIE, at Pomeroy, last week, for whipping one of his pupils with great severity, for refusing to get a Geography lesson.

Mr. Geo. Bruner, of Pomeroy, had a little child so severely scalded, last week, that it died within a few days.

Marietta has 33 retail liquor houses.

V. A. GATES is on the Citizen's Municipal ticket for Councilman, for Charleston, W. Va.

The Centenary M. E. Church, in Marietta, has just closed a revival, with an addition of 55 members.

Dr. R. N. Barr, formerly First Surgeon of the famous 38th Ohio, during the rebellion, is now a member of the Alabama State Senate.

One hundred and eight persons have been received into Harnar Methodist Church, during the recent revival.

SAMUEL SILVERMAN, of Racine, was seriously injured, last week, by falling down the stairs leading from the first to the second floor of his mill at that place.

The average cost of Turnpikes in Scioto county is stated as follows: Portsmouth and Galea road, \$1,636 per mile; Portsmouth and Buena Vista, \$1,807; and the highest, \$2,200 per mile. These are certainly cheap.

Since the beginning of the revival now going on in Dayton, 709 persons have been converted and joined the church. In Montgomery county, 300 more have joined.

Miss Maria Pinkerton is Clerk of the Probate Court at McConnell's ville.

Darke county claims to be the banner turnpike county in the State.

The kidneys of a beef lately slaughtered in Circleville, contained 48 pounds of fat.

The Wharfage receipts, at Ports mouth, for February, were \$990.

A new boat 130 feet long, 20 feet beam and 5 feet hold, was launched at Middleport on Wednesday, and will be completed at Ironton. The boat is being built by the owners of the Victor No. 3, Ironton and Gallipolis packet, and will be finished by the 1st of May.

THE HENRIE HOUSE, Cincinnati, has struck the right chord in reducing its fare to \$1.50 per day.

We can assure our friends that it is kept second to none in the city, and, according to our views, we think it is a wasteful expenditure of money to pay a large price for any article when the same quality can be had for less money.

The house has been thoroughly renovated, and as Mr. JAMES WATSON is giving it his personal attention, with the convenience of street cars passing the door from all depots, we know it will be appreciated by the public.

In the House of Representatives, Ohio Legislature, March 8th, Mr. BRADBURY presented the petition of 150 citizens of Ohio township against erecting sub-district No. 2, of said township, into a separate school district.

The weather for the past two weeks would have done far more credit to January than March.

This morning, the 16th, the earth is white with snow, and the ground frozen hard, the thermometer, at 8 o'clock, standing at 24 deg's.

The Ohio House of Representatives, on Friday, passed the bill establishing an Agricultural College. The location is to be left to a Board of Trustees, who are to have until October 15th, 1870, to make the selection.

### Broom Corn.

In the review of the Cincinnati market as published in the Commercial of 9th inst., Broom Corn is quoted thus:

"Green baled per ton, \$220 @ \$230  
"Red baled " 100 @ 200  
"Loose baled " 120 @ 150

At these prices, it is said, "fair supply, with a corresponding demand."

Now that wheat, potatoes, and most farm products rule low in the market, would it not be advisable for our farmers to turn their attention to raising broom corn. It can be raised in this section of country, and as the planting season is at hand, we suggest the propriety of our "wide awake" farmers giving it a trial—and for their benefit offer the following method as practiced by some of the best growers in Southwestern Ohio.

Broom corn may be planted in hills, or in rows if the land is free from weeds. If the ground is strong, plant 2½ by 3 feet, if on poor land make the hills 3 feet apart—Be careful to plant none but good seed, about one peck to the acre, with 10 stalks to the hill, if good soil. If but five or six stalks in a hill the brush is coarse and crooked, and not ready sale. Be careful not to plant too thickly, as "thinning out" is a tedious process, and rarely attended to as it should be.

The cultivation should be thorough, keeping down the weeds and stirring the soil same as for corn. There is a dwarf variety that is being extensively cultivated, growing about four feet high, bearing a brush of fine fibre, light green color, and as long as that produced on stalks 10 feet high. It is much easier to cultivate, not so liable to break down by high winds, and will bear a good crop on thin land. The seed can be obtained in Cincinnati.

So profitable has the raising of broom corn become, that we see it stated 15,000 acres will be planted this season in Pickaway county, Ohio, more than in any previous year.

As brooms are now manufactured in Gallipolis, a home market would most probably be afforded for all raised in the county.

Whiskey is not a tonic, but an alternative. It alters dollars to cents, virtue to vice, and men to brutes.

Rosadalis! Miss M. A. C., at Newsom's Depot, Va., further says:

Owing to my great suffering from Rheumatism the last several years, I have been deprived of the ability to do fine needlework, of which I was very fond. But after using two bottles of Rosadalis, I have "hemmed" eight yards of beautiful French cambric ruffles and made a lovely "Nainsook" skirt for a friend, the making of which required a great deal of work. I would also add that my cousin Frank Ridley, had a daughter suffering with White Swelling, and the doctors thought it would be necessary to amputate the limb. She began to take Rosadalis, however, and I am happy to say she is to-day entirely cured.

I reside in the family of Colonel Thomas Ridley, and take great pleasure in recommending Rosadalis to the afflicted everywhere. [Feb. 24.—1m.]
